EDUCATION

❖ **Internet (Youtube, Telegram and others)** 2020 — 2024

HTML, CSS, PHP, Laravel

I was interested in creating telegram bots, so I started learning **PHP** and that's how I got my job. I learn many things from the **Internet** that I did not know until now.

❖ **Root Academy** 2021 — 2022

Python, Django

Andijan

The purpose of my choice of **Python** programming language was that it was considered the language of the future and that it was possible to participate in the **Programming Olympiads** with this language.

❖ **Andijan Cyber Technology Academy [ACTA]** 2023

Html, Css, Sass, Js, React

By coming to this training center, I strengthened the knowledge I learned and learned to work in the **React framework**. Here we were mainly trained as **FullStack**. Frontend and Backend (**PHP**)

SKILLS

Python Django, RestAPI, TelegramBot

PHP Laravel, RestAPI, TelegramBot

JavaScript JQuery

HTML Bootstrap

CSS Sass

SQL MySql, Sqlite, Postgresql

LANGUAGES

Uzbek *Native speaker* English *A2*

EMPLOYMENT HISTORY

❖ **Milliy Soft, Backend Developer** 2023 — 2024

We were working on **PHP No Framework** at my workplace. We were a good team. Here we mainly fulfilled orders and our main work was preparing POS and CRM systems. Even now, we sometimes work remotely with the team.

❖ **Freelancer, Web Developer** 2020 — 2024

I usually receive various orders through Telegram and other networks. That is, I offer my services and thereby complete their orders by talking to different people.
